

## 7 Clouds of Glory

6 clouds carried B"Y smoothly like a ship; protecting them from snakes & scorpions; a 7<sup>th</sup> led the way

## Cloud = Force Field

All arrows fired at Bnei Yisrael were absorbed by the Clouds of Glory

## 12 Paths

The Sea split into 12 paths, one for each Tribe

## Mosaic Sea Bed

The dry Sea bed was turned into a beautiful mosaic like in palaces; to show honor to the Bnei Yisrael

## Water, Water Everywhere

By putting your finger in the wall, *fresh (not salt)* water came out in a fountain to drink *and* to feed the animals

## No Leaks Here!

After you finished drinking "from the walls", the fountain immediately stopped & the wall hardened

## Grass for Everyone

The animals had plenty to eat with vegetation growing right out of the ground

## Bubble, Bubble

The Pillar of Fire boiled the muddy ground for the Mitzriyim

## Mitzriyim Pursue

G-d implanted in the Mitzriyim the idea to pursue the Bnei Yisrael, even though it flew against all logic

## The Sea Split

Some say the water got hard & dry *by* the East Wind & *then* split; others say it split & *then* the wind dried up the ground

## 12 Tunnels

The Sea surrounded B"Y on *all* sides, including on *top*; a reward for the blood on all sides & on *top* of the door

## Transparent Walls

The Tribes could see each other through the transparent walls; which also reflected the Pillar of Fire

## No Miscarriages

Despite all the terror and confusion, not a single miscarriage occurred to the B"Y women

## No Passing Zone

Though there were many old people, everybody traveled at the same pace & reached the other side together

## "After Them!"

Even though the splitting of the Sea was an obvious miracle, the Mitzriyim followed the B"Y anyway

## Shopping Cart Syndrome

G-d removed 1 wheel from each Mitzri's chariot, so it swung back & forth, often killing its passengers

## Dark & Light Clouds

On the 7<sup>th</sup> night, the front Cloud of Glory moved *behind* & was *Light* on the B"Y side & *Dark* on the Mitzri side

## All Waters Split

Waters everywhere split into *12 paths* - rivers, wells, containers, etc.; except the Jordan, *it* flowed backwards

## A Dry Sea Bed

The Sea was first filled with boiling mud & then dried up to make it more comfortable for B"Y that were complaining

## Fruit & Perfume

The tunnels produced fruit for the children to eat and the smell of Gan Eden filled the tunnel

## Level Ground

The water hardened to fill the cracks, crevices and canyons so the land the Bnei Yisrael walked on was level

## Water Mountains

The walls of water towered like huge mountains and terrified nations *hundreds* of kilometers away

## Ground → Mud

The Clouds of Glory turned the comfortable ground for the Bnei Yisrael into mud for the Mitzriyim

## "I Can't Move!"

When many Mitzriyim fell, they were as heavy as lead and couldn't run or swim to save themselves

## Reverse All Engines!

Even when the Mitzri's chariots *did* move, it only moved *towards* the water, it was impossible to turn away

## Ear-Splitting

The sound of the splitting of the Sea could be heard all over the world

## Even on Land

The few Mitzriyim who made it to land (often w/magic), were jumped on by the Sea and drowned on the beach

## Spin Cycle

G-d agitated the water so much so, that the Mitzriyim were thrown in the air over & over again

## Up & Down

Even though heavy as lead, the Mitzriyim were thrown up & down between various depths, increasing their pain

## Dead Mitzriyim

For those Bnei Yisrael who lacked faith, G-d had the Sea spew the dead Mitzriyim where they could be seen

## Pharaoh Lives!

G-d left Pharaoh alive so that he would tell the world about G-d's greatness

## Unburied

Even the Mitzriyim who were swallowed by the earth, were washed ashore for the B"Y to see them dead & take their treasures

## Bone Breaking

Even though the Sea bed was mud, when a Mitzri fell, the ground was like stone and broke their bones

## Hot? Cold?

The wind first froze the Sea making it solid; then the same wind melted the Sea to drown the Mitzriyim

## All and None

Every single Mitzri died; yet not one from Bnei Yisrael died

## Locked in Embrace

The Mitzri horses & chariots stayed together when thrown in the air, so the horses couldn't swim to safety

## Sea Quake!

Many Mitzriyim were swallowed up by the Sea bed

## Dying, Dying, Dead

The Mitzriyim gave their last gasp of life only *after* they were washed ashore - so they could see that B"Y lived

## Michah Lives

Though a number of B"Y were carrying & worshipping Michah's idol, they and all of B"Y were spared

## Ping Pong

Neither the Earth nor the Sea wanted to bury the Mitzriyim; throwing them back at each other many times

## This is Rain?

Stones, hail and fiery coals rained down on the Mitzriyim, adding to all the confusion

## Meltdown

Instead of melting slowly, the Sea melted suddenly and all at once, immediately swallowing up the Mitzriyim

## They Keep Going & Going

Even Mitzriyim that *wanted* to stay ashore, kept going into the water, some driven by tornado force winds

## Double Trouble

The subterranean & Sea waters fought over drowning the Mitzriyim, dislocating their limbs & tearing the clothes off their bodies

## A City in the Clouds

G-d raised Mitzriyim so they could see their armies being defeated; they could even see the actual faces!

## Drawing Straws

Though there were non-Mitzriyim fighting with Pharaoh, *only* the Mitzriyim were killed

## More Treasures

The B"Y's belongings were all saved; and all of Pharaoh's treasures were washed ashore for the B"Y to take

## Yaakov Watches

As promised before Yaakov went to Mitzriyim, G-d "woke" him up to witness the miracles of the Yam Suf

## **The Perfect Choir**

All of B"Y reached the level  
of a Navi & were able to sing  
along w/Moshe the entire  
Shira w/out practicing once!

## **The Perfect Pirchei**

Nursing babies, even children  
in-utero sang the Shira
